

Elijah-Christian Wiegand

Full Stack Developer | .NET | React | Postgres SQL

Commack, NY 11725

ewiegand51@gmail.com

+1 631 704 2281

Entry Level Full Stack Developer with a strong foundation in developing end-to-end web applications. Contributed to a project that increased website traffic by 20%. Known for quick learning and adaptability, demonstrated by mastering new programming languages within weeks. Currently, I am working with Node.js, React, Redux.js, MUI, Express.js, MongoDB. I am assured that my business soft skills and my development quality will impress employers.

Willing to relocate to: New York, NY - Chicago, IL

Authorized to work in the US for any employer

Work Experience

Full Stack Developer

Preferred Risk Insurance-Chicago, IL

June 2024 to Present

- Full Stack Web and Application Development:
- Developed web applications using ASP.NET, the MVC framework, C#, and Visual Basic.
- Closed between 8-12 Jira Tickets per Spint
- Implemented both front-end (HTML, JavaScript) and back-end (ASP.NET) components.
- Collaborated with cross-functional teams to design, develop, and deploy robust solutions.
- User Issue Troubleshooting:
- Diagnosed and resolved user-reported issues related to existing websites.
- Investigated bugs, performance bottlenecks, and usability problems.
- Provided timely support to ensure smooth user experiences.
- Initiative and Proactive Approach:
- Demonstrated excellent initiative by proactively picking up and working on tickets within the company's ticket system.
- Went above and beyond to ensure accurate requirements and timely resolution of issues.
- Self-Driven and Continuous Learning:
- Actively participated in company and technical training sessions.
- Strengthened existing technical knowledge and bridged knowledge gaps within the team.
- Kept up-to-date with industry trends and best practices.
